SKILLS

- **Languages**:   C++, JavaScript, C
- **Frameworks**:   HTML and CSS, Bootstrap
- **Tools/Platforms**: MySQL, Cisco Packet Tracer
- **Soft Skills**:   Good Listener, Problem-Solving Skills, Project Management, Interpersonal Skills

PROJECTS

CarRental Website | Selenium IDE   Aug 2024-Nov 2024

- Automated functional testing for the Car Rental Management System, identifying bugs and improving test coverage.
- Managed a database to track individuals renting vehicles.
- Analyzed test results and reported defects using bug-tracking tools

CarRental Management System: MySQL   Aug 2024-Nov 2024

- Engineered a reservation and booking system that allows customers to search for available cars, schedule pickups, and manage reservations.
- Automated rental and return processes, reducing manual errors and improving accuracy.
- Generated analytical reports on bookings, payments, and vehicle utilization to help in decision-making.
- Developed a dynamic vehicle management module to add, update, and monitor car inventory.

CERTIFICATES

Complete the Data Structures and Algorithms (DSA) | CodeHelp   Aug 2023 – Mar 2024

Cyber Tech Fest-OASIS & Quick Heal   Nov 2024

EDUCATION
